If an applicant requests an educational agency (as is defined in Education Law §2-d) to provide it with access to the educational agency's confidential files and/or student records in connection with any training and implementation services provided to the educational agency, the applicant must take all steps necessary to protect the integrity and confidentiality of the student and educator data from the educational agency. The applicant must comply with all applicable federal and state laws and regulations (including, but not limited to, the federal Family Educational Rights and Privacy Act and Social Security Act, and New York State Social Services Law, Personal Privacy Protection Law and Education Law, §2-d). The applicant must enter into data protection agreements, confidentiality agreements, or non-disclosure agreements with the educational agency, as they are required by the above-referenced federal and state laws and regulations.

In the text box below, please describe how you will use to maintain the confidentiality of personnel and/or student records. If access to records is required as part of the training and implementation services you provide, you may submit additional pages as an attachment.

Re: LSI-Marzano Focused Teacher Inquiry dated October 4, 2017

Dear Rubric RFQ Team,

Please find / 6 , responses to the questions you provided in your letter dated October 4, 2017 regarding our submission of the Marzano Focused Teacher Evaluation Model as an approved rubric in the state of New York.

1. Under Education Law §3012-d, all observable components of a selected rubric must be scored on a 1-4 scale. Scores from all observed components are then weighted based on a formula selected by the district to arrive at an overall score and rating for the observation category. Please clarify how the submitted rubric can be used by school districts and BOCES consistent with this statutory requirement.

The Marzano Focused Teacher Evaluation rubric is adapted by combining the 0 and 1 scores. This allows flexibility to use the rubric in states that have 4 or 5-point scale.

2. Each domain of the submitted rubric carries a considerable number of specific attributes of preferred practice that an observer is required to note during an observation. Please clarify the scoring regime that will be utilized by evaluators, including a description
