Per usual requirements for revenue anticipation loans, the Library must demonstrate that the funding is required. The goal should be for the Library to plan, so that these annual loans are no longer needed and the financial relationship of the two entities is more distinct, as is the case in other communities.	2	For any Tax Anticipation Notes, the Library will provide the necessary documentation to substantiate the need for such funding. This process will provide the appearance and evidence that the two entities are separate and distinct from each other.
