Required Student Performance Subcomponent

For guidance on the required subcomponent of the Student Performance category, see NYSED Educator Evaluation Guidance.

Each teacher shall have a locally determined Student Learning Objective (SLO) consistent with the goal-setting process determined by the Commissioner.

Student Learning Objectives (SLOs)

For guidance on SLOs, see NYSED SLO Guidance.

SLOs shall be used as the required student performance measure for all teachers. The following must be used as the evidence of student learning within the SLO.

MEASURES

SLO measures may be either individually attributed or collectively attributed.

Individually attributed measures

An individually attributed SLO is based on the student population of a course for which the teacher directly contributes to student learning outcomes.

> Individually attributed results: scores and ratings will be based on the growth of students in the teacher's course in the current school year.

Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple sections of the same course or across multiple courses where more than one teacher either directly or indirectly contributes to student learning outcomes. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where teachers have an opportunity to collectively impact student learning;
- identifying which assessments could be used to help foster and support the LEA's focus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> Collectively attributed results: scores and ratings will be based on the growth of all students in a school or program or students across buildings/programs in an LEA who take the applicable assessments in the current school year.

> Collectively attributed group or team results: scores and ratings for a group or team of teachers will be based on the growth of students in the group/team of teachers' courses or students in the group/team of teachers' courses across buildings/programs in an LEA in the current school year.

> Collectively attributed linked results: scores and ratings will be based on the growth of students enrolled in the teacher's course in the current school year taking assessments in other grades/subjects.

ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

- **State assessment(s)**; or

Use of the Optional Subcomponent and Student Performance Category Weighting

- If the Optional subcomponent is not used, the Required subcomponent will comprise 100% of the Student Performance category.
- If the Optional subcomponent is used, the percentage of the Student Performance category attributed to the Required subcomponent will be locally determined.

Please indicate if the Optional subcomponent will be used by making the appropriate selection below.

NO, the Optional subcomponent WILL NOT be used; the Required subcomponent will comprise 100% of the Student Performance category.

At what level are the observable components of the selected rubric(s) rated?

☑ Subcomponent level (each observable subcomponent receives a rating)

How are the observable components of the selected rubric(s) weighted?

☑ Each component is weighted equally and averaged

Scoring the Observation Category

If an evaluator conducts multiple observations of the same type, how are those observations weighted?

Examples of observations of the same type include but are not limited to:

- **Two observations by the principal with one early in the school year weighted at 40% and one late in the school year weighted at 60%.**
- **Two observations by the principal, with one holistic score for each component of the rubric based on the preponderance of evidence over both observations.**

Pl i. e Pl

☑ Multiple observations of the same type are weighted equally

Please read the assurances below and check each box.

☑ Assure that each set of observations (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted observation score will then be converted into a HEDI rating using the ranges indicated below.

☑ Assure that once all observations are complete, the different types of observations will be combined using a weighted average consistent with the weights specified in the next section, producing an overall Observation category score between 0 and 4. In the event that a teacher earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.

Teacher Observation Scoring Bands

The overall Observation score will be converted into a HEDI rating based on locally determined ratings consistent with the ranges listed.

	Overall Observation Category Score and Rating	
	Minimum	Maximum
H	3.5 to 3.75	4.0
E	2.5 to 2.75	3.49 to 3.74
D	1.5 to 1.75	2.49 to 2.74
I	0.00*	1.49 to 1.74

* In the event that an educator earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.

Teacher Observation

The teacher observation category is made up of two (2) required and one (1) optional subcomponents.

- The frequency and duration of observations are locally determined.
- Observations may occur in person, by live virtual observation, or by recorded video, as determined locally.
- LEAs may locally determine whether to use more than one observation by any of the required observers. Nothing shall be construed to limit the discretion of administrators to conduct observations in addition to those required by this section for non-evaluative purposes.

Required Subcomponents

- At least one of the required observations **must be unannounced (across both required subcomponents).**

Required Subcomponent 1: Observations by Principal(s) or Other Trained Administrator(s)

- At least one **observation must be conducted by the building principal or other trained administrator.**

Required Subcomponent 2: Observations by Impartial Independent Trained Evaluator(s)*

- At least one **observation must be conducted by an impartial independent trained evaluator.**
- Impartial independent trained evaluators are trained and selected by the LEA. They may be employed within the LEA, but may not be assigned to the same school building as the teacher being evaluated. This could include other administrators, department chairs, or peers (e.g., teacher leaders on career ladder pathways), so long as they are not from the same building (defined as same BEDS code) as the teacher being evaluated.

* The process selected for conducting observations, including those conducted by trained, impartial independent evaluators, exists in perpetuity until a new plan is approved by the Commissioner. However, if your LEA applies for and receives approval of an Independent Evaluator Hardship Waiver for a school year, then the terms specified in that waiver application will apply for that school year only. Please note that independent Evaluator Hardship Waiver requests must be submitted and approved on an annual basis.

Optional Subcomponent: Observations by Trained Peer Observer(s)

- **If selected,** at least one **observation must be conducted by a trained peer observer.**
- Peer teachers are trained and selected by the LEA. Trained peer teachers must have received an overall rating of Effective or0 or0ID /C2_0 1 Tf -0.906 - -02

Page Last Modified: 03/23/2023

Number and Method of Observation: Subgroup 2

- At least one of the required observations must be unannounced (across both required subcomponents).
- Required Subcomponent 1: At least one observation must be conducted by the building principal or other trained administrator (supervisor).
- Required Subcomponent 2: At least one observation must be conducted by an impartial independent trained evaluator (independent evaluator).
- Optional Subcomponent: If selected, at least one observation must be conducted by a trained peer observer (peer observer).

Please identify the second subgroup of teachers to whom the information in the table below applies.

☑ Assure that if the LEA is granted an annual Rural/Single Building District Independent Evaluator Hardship Waiver by the Department, the terms of such waiver shall apply for the school year during which the waiver is effective; and, that in any school year for which there is an approved waiver, the second observation(s) shall be conducted by one or more evaluators selected and trained by the LEA, who are different than the evaluator(s) who conducted the observation(s) required to be performed by the principal/supervisor or other trained administrator. See Section 30-3.4(c)(1)(ii)(a) of the Rules of the Board of Regents.

☑ Assure that if the LEA is granted an annual Undue Burden Independent Evaluator Hardship Waiver by the Department, the terms of such waiver shall apply for the school year during which the waiver is effective; and, that in any school year for which there is an approved waiver and such waiver contains information that conflicts with the information provided in Task 4 of the LEA's approved Section 3012-d Educator Evaluation plan, the provisions of the approved waiver will apply. See Section 30-3.4(c)(1)(ii)(b) of the Rules of the Board of Regents.
