#### **Disclaimers**

For guidance related to Educator Evaluation plans, see NYSED Educator Evaluation Guidance. For a definition of terms related to Educator Evaluation, see the Educator Evaluation Glossary.

The Department will review the contents of each local educational agency's (LEA) Educator Evaluation plan as submitted using this online form, including required attachments, to determine if the plan rigorously complies with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Department approval does not imply endorsement of specific educational approaches in an LEA's plan.

The Department reserves the right to request further information from an LEA to monitor compliance with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Each LEA is required to keep detailed records on file for each section of the currently implemented Educator Evaluation plan. Such detailed records must be provided to the Department upon request. The Department reserves the right to disapprove or require modification of an LEA's plan that does not rigorously adhere to the requirements of Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents.

The Department will not review any attachments other than those required in the online form. Any additional attachments supplied by the LEA are for informational purposes only for the teachers and principals reviewed under this Educator Evaluation plan. Statements and/or materials in such additional attachments have not been approved and/or endorsed by the Department. However, the Department considers void any other signed agreements between and among parties in any form that prevent, conflict, or interfere with full implementation of the Educator Evaluation plan approved by the Department. The Department also reserves the right to request further information from the LEA, as necessary, as part of its review of this plan.

If the Department reasonably believes through investigation, or otherwise, that statements made in this Educator Evaluation plan are not true or accurate, it reserves the right to reject or disapprove this plan at any time and/or to request additional information to determine the truth and/or accuracy of such statements.

At what level are the observable components of the selected rubric(s) rated?

☑ Subcomponent level (each observable subcomponent receives a rating)

How are the observable components of the selected rubric(s) weighted?

☑ Observable components are combined in some other manner (please provide more information below)e.g., domains 2 and 3 are weighted as 40% each, and Domains 1 and 4 are weighted as 10% each.

In the box below, please describe how the observable components of the rubric are combined.

Domain 1 - 41 elements 65% Domain 2 -8 elements 15%, Domain 3 - 5 elements 10%, Domain 4 - 6 elements 10%

#### **Scoring the Observation Category**

If an evaluator conducts multiple observations of the same type, how are those observations weighted? Examples of observations of the same type include but are not limited to:

- Two observations by the principal with one early in the school year weighted at 40% and one late in the school year weighted at 60%.
- Two observations by the principal, with one holistic score for each component of the rubric based on the preponderance of evidence over both observations.

Please note: Weighting across observation type (i.e. Principal vs. Independent Evaluator) are described in the following section.

 $\ensuremath{\square}$  Multiple observations of the same type are weighted equally

#### **Teacher Observation Subcomponent Weighting**

For a definition of terms used in this section, see the Educator Evaluation Glossary.

Required Subcomponent 1: Observations by Principal(s) or Other Trained Administrator(s)

- At least 80% of the Teacher Observation category score

Required Subcomponent 2: Observations by Impartial Independent Trained Evaluator(s)\*

- At least 10%, but no more than 20%, of the Teacher Observation category score

Task 4. TEACHERS: Observations - Teacher Observations

Page Last Modified: 01/27/2023

#### **Teacher Observation**

The teacher observation category is made up of two (2) required and one (1) optional subcomponents.

- The frequency and duration of observations are locally determined.
- · Observations may occur in person, by live virtual observation, or by recorded video, as determined locally.
- LEAs may locally determine whether to use more than one observation by any of the required observers. Nothing shall be construed to limit the discretion of administrators to conduct observations in addition to those required by this section for non-evaluative purposes.

#### **Required Subcomponents**

• At least one of the required observations must be unannounced (across both required subcomponents).

#### Required Subcomponent 1: Observations by Principal(s) or Other Trained Administrator(s)

• At least one observation must be conducted by the building principal or other trained administrator.

#### Required Subcomponent 2: Observations by Impartial Independent Trained Evaluator(s)\*

- At least one observation must be conducted by an impartial independent trained evaluator.
- Impartial independent trained evaluators are trained and selected by the LEA. They may be employed within the LEA, but may not be assigned to the same school building as the teacher being evaluated. This could include other administrators, department chairs, or peers (e.g., teacher leaders on career ladder pathways), so long as they are not from the same building (defined as same BEDS code) as the teacher being evaluated.
- \* The process selected for conducting observations, including those conducted by trained, impartial independent evaluators, exists in perpetuity until a new plan is approved by the Commissioner. However, if your LEA applies for and receives approval of an Independent Evaluator Hardship Waiver for a school year, then the terms specified in that waiver application will apply for that school year only. Please note that independent Evaluator Hardship Waiver requests must be submitted and approved on an annual basis.

#### Optional Subcomponent: Observations by Trained Peer Observer(s)

- If selected, at least one observation must be conducted by a trained peer observer.
- Peer teachers are trained and selected by the LEA. Trained peer teachers must have received an overall rating of Effective or Highly Effective in the prior school year.

#### **Observation Assurances**

#### Please read the assurances below and check each box.

- Assure that the following elements will not be used in calculating a teacher's Observation category score and rating: evidence of student development and performance derived from lesson plans, other artifacts of teacher practice, and student portfolios, except for student portfolios measured by a State-approved rubric where permitted by the Department; use of an instrument for parent or student feedback; and/or use of professional goal-setting as evidence of teacher effectiveness. Consistent with Subpart 30-3 of the Rules of the Board of Regents, assure that points shall not be allocated based on any artifacts, unless such artifact constitutes evidence of an otherwise observable rubric subcomponent.
- ☑ Assure that the length of all observations for teachers will be conducted pursuant to the locally-determined durations.
- ☑ Assure that at least one of the required observations will be unannounced.

#### **Number and Method of Observation**

- At least one of the required observations must be unannounced (across both required subcomponents).
- Required Subcomponent 1: At least one observation must be conducted by the building principal or other

#### Please read the assurances below and check each box.

- Assure that the LEA will formulate and commence implementation of a Teacher Improvement Plan (TIP) for all teachers who receive an overall rating of Developing or Ineffective by October 1 following the school year for which such teacher's performance is being measured or as soon as practicable thereafter.
- Assure that TIP plans developed and implemented by the superintendent or their designee, in the exercise of their pedagogical judgment, and subject to collective bargaining to the extent required under article 14 of the Civil Service Law, shall include: identification of needed areas of improvement, a timeline for achieving improvement, the manner in which the improvement will be assessed, and, where appropriate, differentiated activities to support a teacher's improvement in those areas.

#### **Teacher Improvement Plan Forms**

All TIP plans developed and implemented by the superintendent or their designee, in the exercise of their pedagogical judgment, must include:

- 1) identification of needed areas of improvement;
- 2) a timeline for achieving improvement;
- 3) the manner in which the improvement will be assessed; and, where appropriate,

#### Inter-rater Reliability

Inter-rater reliability refers to the extent to which different evaluators produce similar ratings in judging the same abilities or characteristics in the same target person or object. Within the context of educator evaluation, inter-rater reliability requires all evaluators trained in the observation process to reach independent consensus on observable behaviors to ensure the accuracy, consistency, and precision of the implementation of the chosen evaluation rubric(s). It also requires administrators to analyze and track educator evaluation data and ensure that observations are being completed with fidelity.

Select the option(s) below that best describe the process in place for maintaining inter-rater reliability. *Please check all that apply.* 

- ☑ Data analysis to detect disparities on the part of the evaluators
- ☑ Periodic comparisons of an evaluator's assessment of the same classroom teacher
- ☑ Periodic calibration meetings and/or trainings

#### Inter-rater Reliability

Inter-rater reliability refers to the extent to which different evaluators produce similar ratings in judging the same abilities or characteristics in the same target person or object. Within the context of educator evaluation, inter-rater reliability requires all evaluators trained in the school visit process to reach independent consensus on observable behaviors to ensure the accuracy, consistency, and precision of the implementation of the chosen evaluation rubric(s). It also requires administrators to analyze and track educator evaluation data and ensure that school visits are being completed with fidelity.

Select the option(s) below that best describe the process in place for maintaining inter-rater reliability.

Please check all that apply.

- ☑ Data analysis to detect disparities on the part of the evaluators
- $\ensuremath{\square}$  Periodic comparisons of an evaluator's assessment of the same building principal
- ☑ Periodic calibration meetings and/or trainings
