For guidance on the optional subcomponent of the Student Performance category, see NYSED Educator Evaluation Guidance.

Percentage of Student Performance category to be locally determined if selected.

Such second measure shall apply in a consistent manner, to the extent practicable, across all classrooms in the same grade/subject in the LEA and be a locally selected measure of student growth or achievement based on State-created or -administered assessments or State-designed supplemental assessments.

Options for measures and associated assessments include:

- Option (A) A second SLO, provided that this SLO is different than that used in the required subcomponent;
- Option (B) A growth score based on a statistical growth model, where available, for either State-created or -administered assessments or State-designed supplemental assessments;

Please indicate if the optional subcomponent will be used by making the appropriate selection below.

NO, the optional subcomponent WILL NOT be used in the Student Performance category for any teacher.

Teacher Observation Category

See the Educator Evaluation Glossary for the Teacher Observation category, see NYSED Educator Evaluation Guidance. For a definition of terms used in this section,

Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess teacher practice based on the NYS Teaching Standards.

Rubric Name	If more than one rubric is utilized, please indicate the group(s) of teachers each rubric applies to.
Danielson's Framework for Teaching (2013 Revised Edition)	(No Response)

Please read the assurances below and check each box.

- Assure that the same rubric(s) is (are) used for all observations of a classroom teacher across the observation types in a given school year.
- Assure that the same rubric(s) is (are) used for all observations of a classroom teacher across the observation types in a given school year.

Rubric Rating Process

For more information on the Teacher Observation category see NYSED Educator Evaluation Guidance. For a definition of terms used in this section, see the Educator Evaluation Glossary.

The following is one example of how an LEA might score teacher observations using the selected practice rubric: Domains 1-4 of the Danielson rubric have been negotiated as observable. Domains 2 and 3 are weighted as 40% each, and Domains 1 and 4 are weighted as 10% each. For each observation, evidence is collected for all observed subcomponents in a domain. A holistic domain score is then determined for each teacher. These domain scores are weighted as indicated above to reach a final score for each observation. Scores for each observation are weighted equally and averaged to reach a final score for each observation type. The LEA will ensure that all subcomponents designated as

observable will be used for the purpose of teacher evaluation. LEA WKH SURFHVV IRU UDWLQJ DQG VFRULQJ WKH V

Please read the assurances below and check each box.

- Assure that the designation of components of the selected practice rubric as observable is locally negotiated.
- Assure that the components of the selected practice rubric designated as observable are assessed at least once and that each of the components is assessed at least once.
- Assure that components designated as a 1 or 2 are not designated as highly effective or a 4, and components designated as a 3 or 4 are not designated as a 1 or 2.
- Assure that the process of assigning scores and weighting is consistent with the observation is consistent with locally determined

Educator Evaluation - Ed Law §3012-d, amended in 2019

Task 4. TEACHERS: Observations - Rubric and Scoring

Page Last Modified: 02/02/2023

At what level are the observable components of the selected rubric(s) rated?

- Subcomponent level (each observable subcomponent receives a rating)

How are the observable components of the selected rubric(s) weighted?

- Observable components are combined in some other manner (please provide more information below)e.g., domains 2 and 3 are weighted as 40% each, and Domains 1 and 4 are weighted as 10% each.

In the box below, please describe how the observable components of the rubric are combined.

For probationary teachers in the Mount Pleasant Central School District, the four domains are weighted equally (25% each). For teachers who are tenured in the Mount Pleasant Central School District, Domains 1 and 4 are weighted at 20% each and Domains 2 and 3 are weighted at 30% each.

Scoring the Observation Category

If an evaluator conducts multiple observations of the same type, how are those observations weighted?

Examples of observations of the same type include but are not limited to:

Two observations by the principal with one early in the school year weighted at 40% and one late in the school year weighted at 60%.

Two observations by the principal, with one holistic score for each component of the rubric based on the preponderance of evidence over both observations.

Please note: Weighting across observation type (i.e. Principal vs. Independent Evaluator) are described in the following section.

- Multiple observations of the same type are weighted in some other manner (please provide more information below)

In the box below, please describe how multiple observations of the same observation type will be weighted.

One holistic score for each component of the rubric based on the preponderance of evidence over both observations.

Please read the assurances below and check each box.

- Assure that each set of observations (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted observation score will then be converted into a HEDI rating using the ranges indicated below.
- Assure that once all observations are complete, the different types of observations will be combined using a weighted average consistent with the weights specified in the next section, producing an overall Observation category score between 0 and 4. In the event that a teacher earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.

Teacher Observation Scoring Bands

The overall Observation score will be converted into a HEDI rating based on locally determined ratings consistent with the ranges listed.

Optional Subcomponent: Observations by Trained Peer Observer(s)

Please be sure the total of the weights indicated equals 100%.

* The process selected for conducting observations, including those conducted by trained, impartial independent evaluators, exists in perpetuity until a new plan is approved by the Commissioner. However, if your LEA applies for and receives approval of an Independent Evaluator Hardship Waiver for a school year, then the terms specified in that waiver application will apply for that school year only. Please note that independent Evaluator Hardship Waiver requests must be submitted and approved on an annual basis.

Task 4. TEACHERS: Observations - Teacher Observations

Page Last Modified: 04/12/2023

Teacher Observation

The teacher observation category is made up of two (2) required and one (1) optional subcomponents.

The frequency and duration of observations are locally determined.

Observations may occur in person, by live virtual observation, or by recorded video, as determined locally.

LEAs may locally determine whether to use more than one observation by any of the required observers. Nothing shall be construed to limit the discretion of administrators to conduct observations in addition to those required by this section for non-evaluative purposes.

Required Subcomponents

At least one of the required observations must be unannounced (across both required subcomponents).

Required Subcomponent 1: Observations by Principal(s) or Other Trained Administrator(s)

At least one observation must be conducted by the building principal or other trained administrator.

Required Subcomponent 2: Observations by Impartial Independent Trained Evaluator(s)*

At least one observation must be conducted by an impartial independent trained evaluator.

Impartial independent trained evaluators are trained and selected by the LEA. They may be employed within the LEA, but may not be assigned to the same school building as the teacher being evaluated. This could include other administrators, department chairs, or peers (e.g., teacher leaders on career ladder pathways), so long as they are not from the same building (defined as same BEDS code) as the teacher being evaluated.

* The process selected for conducting observations, including those conducted by trained, impartial independent evaluators, exists in perpetuity until a new plan is approved by the Commissioner. However, if your LEA applies for and receives approval of an Independent Evaluator Hardship Waiver for a school year, then the terms specified in that waiver application will apply for that school year only. Please note that independent Evaluator Hardship Waiver requests must be submitted and approved on an annual basis.

Optional Subcomponent: Observations by Trained Peer Observer(s)

If selected, at least one observation must be conducted by a trained peer observer.

Peer teachers are trained and selected by the LEA.

trained administrator (supervisor).

Required Subcomponent 2: At least one observation must be conducted by an impartial independent trained evaluator (independent evaluator).

Optional Subcomponent: If selected, at least one observation must be conducted by a trained peer observer (peer observer).

Please use the table below to enter the minimum number of observations and method of observation for each type listed.

Such targets may only take the following characteristics into account: poverty, students with disabilities, English language learner status and prior academic history.
- For principals evaluated using an SLO, assure that all student growth targets shall measure the change in a student's performance between the baseline and the end of the course.
- For principals evaluated using an SLO, assure that if the principal's SLO is based on a small 'n' size population and the LEA chooses not to use the HEDI scoring bands listed above, then the principal's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in SLO Guidance.

Inter-rater Reliability

Inter-rater reliability refers to the extent to which different evaluators produce similar ratings in judging the same abilities or characteristics in the same target person or object. Within the context of educator evaluation, inter-rater reliability requires all evaluators trained in the school visit process to reach independent consensus on observable behaviors to ensure the accuracy, consistency, and precision of the implementation of the chosen evaluation rubric(s). It also requires administrators to analyze and track educator evaluation data and ensure that school visits are being completed with fidelity.

Select the option(s) below that best describe the process in place for maintaining inter-rater reliability.

Please check all that apply.

- Data analysis to detect disparities on the part of the evaluators
- Periodic comparisons of an evaluator's assessment of the same building principal
- Periodic calibration meetings and/or trainings
