Task 2. TEACHERS: Required Student Performance - Student Learning Objectives

Page Last Modified: 11/16/2022

Required Student Performance Subcomponent

For guidance on the required subcomponent of the Student Performance category, see NYSED Educator Evaluation Guidance.

100% of the Student Performance category if only the required subcomponent is used or locally determined if the optional subcomponent is selected.

Each teacher shall have a locally determined Student Learning Objective (SLO) consistent with the goal-setting process determined by the Commissioner.

Page Last Modified: 11/16/2022

Student Learning Objectives (SLOs)

For guidance on SLOs, see NYSED SLO Guidance.

SLOs shall be used as the required student performance measure for all teachers. The following must be used as the evidence of student learning within the SLO.

MEASURES

SLO measures may be either individually attributed or collectively attributed.

Individually attributed measures

An individually attributed SLO is based on the student population of a course for which the teacher directly contributes to student learning outcomes.

> Individually attributed results: scores and ratings will be based on the growth of students in the teacher's course in the current school year.

Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple sections of the same course or across multiple courses where more than one teacher either directly or indirectly contributes to student learning outcomes. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where teachers have an opportunity to collectively impact student learning;
- identifying which assessments could be used to help foster and support the LEA's focus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> Collectively attributed results: scores and ratings will be based on the growth of all students in a school or program or students across buildings/programs in an LEA who take the applicable assessments in the current school year.

> Collectively attributed group or team results: scores and ratings for a group or team of teachers will be based on the growth of students in the group/team of teachers' courses or students in the group/team of teachers' courses across buildings/programs in an LEA in the current school year.

> Collectively attributed linked results: scores and ratings will be based on the growth of students enrolled in the teacher's course in the current school year taking assessments in other grades/subjects.

ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

- State assessment(s); or
-

Use the table below to list all applicable teachers with the corresponding measure and assessment(s).

Task 4. TEACHERS: Observations - Rubric and Scoring

Page Last Modified: 02/25/2022

Teacher Observation Category

For guidance on the Teacher Observation category, see NYSED Educator Evaluation Guidance. For a definition of terms used in this section, see the Educator Evaluation Glossary.

Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess teacher practice based on the NYS Teaching Standards.

Rubric Name	If more than one rubric is utilized, please indicate the group(s) of teachers each rubric applies to.
NYSUT Teacher Practice Rubric (2014 Edition)	(No Response)

Please read the assurances below and check each box.

- Assure that the same rubric(s) is (are) used for all classroom teachers in a grade/subject across the LEA, provided that LEAs may locally determine whether to use different rubrics for teachers who teach different grades and/or subjects during the school year as indicated in the table above.
- Assure that the same rubric(s) is (are) used for all observations of a classroom teacher across the observation types in a given school year.

Rubric Rating Process

For more information on the Teacher Observation category see NYSED Educator Evaluation Guidance. For a definition of terms used in this section, see the Educator Evaluation Glossary.

The following is one example of how an LEA might score teacher observations using the selected practice rubric: *Domains 1-4 of the Danielson rubric have been negotiated as observable. Domains 2 and 3 are weighted as 40% each, and Domains 1 and 4 are weighted as 10% each. For each observation, evidence is collected for all observed subcomponents in a domain. A holistic domain score is then determined for each teacher. These domain scores are weighted as indicated above to reach a final score for each observation. Scores for each observation are weighted equally and averaged to reach a final score for each observation type. The LEA will ensure that all subcomponents designated as observable will be addressed at least once across the observation cycle.*

Page Last Modified: 02/25/2022

At what level are the observable components of the selected rubric(s) rated?

Subcomponent level (each observable subcomponent receives a rating)

How are the observable components of the selected rubric(s) weighted?

Each component is weighted equally and averaged

Scoring the Observation Category

If an evaluator conducts multiple observations of the same type, how are those observations weighted?

Examples of observations of the same type include but are not limited to:

- Two observations by the principal with one early in the school year weighted at 40% and one late in the school year weighted at 60%.
- Two observations by the principal, with one holistic score for each component of the rubric based on the preponderance of evidence over both observations.

Please note: Weighting across observation type (i.e. Principal vs. Independent Evaluator) are described in the following section.

Multiple observations of the same type are weighted equally

Please read the assurances below and check each box.

Assure that each set of observations (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted observation score will then be converted into a HEDI rating using the ranges indicated below.

Assure that once all observations are complete, the different types of observations will be combined using a weighted average consistent with the weights specified in the next section, producing an overall Observation category score between 0 and 4. In the event that a teacher earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.

Teacher Observation Scoring Bands

The overall Observation score will be converted into a HEDI rating based on locally determined ratings consistent with the ranges listed.

	Overall Observation Category	
	Score and Rating	
	Minimum	Maximum
H	3.5 to 3.75	4.0
E	2.5 to 2.75	3.49 to 3.74
D	1.5 to 1.75	2.49 to 2.74
I	0.00*	1.49 to 1.74

* In the event that an educator earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.

Task 4. TEACHERS: Observations - Teacher Observations

Page Last Modified: 01/31/2023

Teacher Observation

The teacher observation category is made up of two (2) required and one (1) optional subcomponents.

- The frequency and duration of observations are locally determined.
 - Observations may occur in person, by live virtual observation, or by recorded video, as determined locally.
 - LEAs may locally determine whether to use more than one observation by any of the required observers. Nothing shall be construed to limit the discretion of administrators to conduct observations in addition to those required by this section for non-evaluative purposes.
-

Required Subcomponents

- At least one of the required observations must be unannounced (across both required subcomponents).

Required Subcomponent 1: Observations by Principal(s) or Other Trained Administrator(s)

- At least one observation must be conducted by the building principal or other trained administrator.

Required Subcomponent 2: Observations by Impartial Independent Trained Evaluator(s)*

- At least one observation must be conducted by an impartial independent trained evaluator.
- Impartial independent trained evaluators are trained and selected by the LEA. They may be employed within the LEA, but may not be assigned to the same school building as the teacher being evaluated. This could include other administrators, department chairs, or peers (e.g., teacher leaders on career ladder pathways), so long as they are not from the same building (defined as same BEDS code) as the teacher being evaluated.

** The process selected for conducting observations, including those conducted by trained, impartial independent evaluators, exists in perpetuity until a new plan is approved by the Commissioner. However, if your LEA applies for and receives approval of an Independent Evaluator Hardship Waiver for a school year, then the terms specified in that waiver application will apply for that school year only. Please note that independent Evaluator Hardship Waiver requests must be submitted and approved on an annual basis.*

Optional Subcomponent: Observations by Trained Peer Observer(s)

- If selected, at least one observation must be conducted by a trained peer observer.
- Peer teachers are trained and selected by the LEA.

Task 5. TEACHERS: Overall Scoring - Category and Overall Ratings

Page Last Modified: 02/25/2022

Category and Overall Ratings

For guidance on Educator Evaluation scoring, see NYSED Educator Evaluation Guidance.

Category Scoring Ranges

The overall Student Performance category score and the overall Observation category score will be converted into a HEDI rating based on the ranges listed in the tables below.

Student Performance			Teacher Observation		
HEDI ratings must be assigned based on the point distribution below.			HEDI ratings must be assigned based on locally determined ranges consistent with the constraints listed below.		
	Overall Student Performance			Overall Observation Category	
	Category Score and Rating			Score and Rating	
	Minimum	Maximum		Minimum	Maximum
H	18	20	H	3.5 to 3.75	4.00

Task 6. TEACHERS: Additional Requirements - Appeals

Page Last Modified: 01/10/2023

Appeals Assurances

Please read the assurances below and check each box.

- Assure that the LEA has collectively bargained appeal procedures that are consistent with the regulations and provide for the timely and expeditious resolution of an appeal.
- Assure that an appeal shall not be filed until a teacher's receipt of their overall rating.

Appeals

Pursuant to Education Law §3012-d, a teacher may only challenge the following in an appeal to their LEA:

- (1) the substance of the annual professional performance review [evaluation]; which shall include the following:
 - (i) in the instance of a teacher rated Ineffective on the Student Performance category, but rated Highly Effective on the Observation category based on an anomaly, as determined locally;
- (2) the LEA's adherence to the standards and methodologies required for such reviews, pursuant to Education Law §3012-d;
- (3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as required under Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents; and
- (4) the LEA's issuance and/or implementation of the terms of the teacher improvement plan, as required under Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents.

Please review your negotiated appeal process and use the table below to describe the appeal process available to teachers.

Which groups of teachers may utilize the appeals process? <i>Select all groups that have the same process as defined in subsequent columns.</i> <i>To add additional groups with a different process, use the "Add Row" button.</i>	Please select the ground(s) on which the teachers selected are permitted to appeal their overall evaluation rating. <i>Select all that apply.</i>	What is the maximum length of time for the teachers selected to receive a final decision from the filing of the appeal?

Training Assurance

Please read the assurance below and check the box.

The LEA assures that all evaluators will be properly trained and lead evaluators will be certified on the below elements prior to completing a teacher's evaluation. Note: independent observers and peer observers need only be trained on, at a minimum, elements 1, 2, and 4 below.

1. The New York State Teaching Standards, and their related elements and performance indicators
2. Evidence-based observation techniques that are grounded in research
3. Application and use of any methodology as part of an SLO and any optional second measures of student performance used by the LEA to evaluate its teachers
4. Application and use of the State-approved teacher rubric(s) selected by the LEA for use in evaluations, including training on the effective application of such rubrics to observe a teacher's practice
5. Application and use of any assessment tools that the LEA utilizes to evaluate its classroom teachers
6. Application and use of any locally selected measures of student growth used in the Optional subcomponent of the Student Performance category used by the LEA to evaluate its teachers
7. Use of the Statewide Instructional Reporting System
8. The scoring methodology utilized by the Department and/or the LEA to evaluate a teacher under this Subpart, including the weightings of each subcomponent within a category; how overall scores/ratings are generated for each subcomponent and category and application and use of the evaluation matrix(es) prescribed by the Commissioner for the four designated rating categories used for the teacher's overall rating and their category ratings
9. Specific considerations in evaluating teachers of English language learners and students with disabilities

Please read the assurance below and check the box.

- If the Superintendent/District Superintendent or other party is the entity certifying evaluators, and also acts in the capacity of an evaluator, please assure that the certification process, including such self-certification, is implemented with fidelity.

Inter-rater Reliability

Inter-rater reliability refers to the extent to which different evaluators produce similar ratings in judging the same abilities or characteristics in the same target person or object. Within the context of educator evaluation, inter-rater reliability requires all evaluators trained in the observation process to reach independent consensus on observable behaviors to ensure the accuracy, consistency, and precision of the implementation of the chosen evaluation rubric(s). It also requires administrators to analyze and track educator evaluation data and ensure that observations are being completed with fidelity.

Select the option(s) below that best describe the process in place for maintaining inter-rater reliability.

Required Student Performance Measures

The required student performance measure for a principal may be either a student learning objective (SLO) or an input model, where the principal's overall rating shall be determined based on evidence of principal practice that promotes student growth related to the Leadership Standards.

STUDENT LEARNING OBJECTIVES

For guidance on SLOs, see NYSED SLO Guidance.

SLO measures may be either individually attributed or collectively attributed.

Individually attributed measures

An individually attributed SLO is based on the learning outcomes of a student population within the principal's building or program.

> *Individually attributed results:* scores and ratings will be based on the growth of students in the principal's building/program in the current school year.

Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple buildings/programs of similar grade configuration or across multiple building/programs where the learning activities of one building/program indirectly contribute to student learning outcomes in another building/program. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where there is an opportunity for a collective impact on student learning;
- identifying which assessments could be used to help foster and support the LEA's focus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> *Collectively attributed results:* scores and ratings for the selected principals will be based on the growth of students in an LEA who take the applicable assessments in the current school year.

> *Collectively attributed group or team results:* scores and ratings for a group or team of principals will be based on the growth of students in the group/team of principals' buildings/programs in an LEA in the current school year.

ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

- State assessment(s); or

Assessment(s) that are selected from the list of State-approved:

- third party assessments; or
 - locally-developed assessments (district-, BOCES-, or regionally-developed).
-

Page Last Modified: 02/25/2022

INPUT MODEL

Selection of the Input Model will require:

- a description of the areas of principal practice that will be evaluated;
- a description of how the selected areas of principal practice promote student growth;
- a description of the evidence of student growth and principal practice that will be collected; and
- a description of how the district will use the evidence to differentiate effectiveness resulting in a score from 0 to 20 and ratings of Highly Effective, Effective, Developing, or Ineffective.

Principal School Visit Category

For guidance on the Principal School Visit category, see NYSED Educator Evaluation Guidance. For a definition of terms used in this section, see the Educator Evaluation Glossary.

For the school visit category, principals' shall be evaluated based on a State-approved rubric using multiple sources of evidence collected and incorporated into the school visit protocol. Where appropriate, such evidence may be aligned to building or district goals; provided, however, that professional goal-setting may not be used as evidence of teacher or principal effectiveness. Such evidence shall reflect school leadership practice aligned to the Leadership Standards and selected practice rubric.

Principal Improvement Plan Assurances

Please read the assurances below and check each box.

- Assure that the LEA will formulate and commence implementation of a Principal Improvement Plan (PIP) for all principals who receive an overall rating of Developing or Ineffective by October 1 following the school year for which such principal's performance is being measured or as soon as practicable thereafter.
- Assure that PIP plans developed and implemented by the superintendent or their designee, in the exercise of their pedagogical judgment, and subject to collective bargaining to the extent required under article 14 of the Civil Service Law, shall include: identification of needed areas of improvement, a timeline for achieving improvement, the manner in which the improvement will be assessed, and, where appropriate, differentiated activities to support a principal's improvement in those areas.

Principal Improvement Plan Forms

All PIP plans developed and implemented by the superintendent or their designee, in the exercise of their pedagogical judgment, must include:

- 1) identification of needed areas of improvement;
- 2) a timeline for achieving improvement;
- 3) the manner in which the improvement will be assessed; and, where appropriate,
- 4) differentiated activities to support a principal's improvement in those areas.
