TEACHER AND PRINCIPAL EVALUATION

FORM C

PUBLICLY AVAILABLE SERVICES SUMMARY

This form will be posted on the New York State Education Department's Web site and distributed through other means for all applications that are approved in conjunction with this RFQ to allow districts and BOCES

**Sullivan BOCES K-12 Student Learning Objective Assessment** Sullivan BOCES K-12 Student Learning Objective Assessments were developed by committees of teachers through regional educational service associations (SEAs). Sullivan BOCES CTE assessments were coordinated through the Department of Instructional Support Services. The assessments are directly linked to New York State Next Generation Learning Standards. The CTE assessments are available for pre and post assessments and are administered during one or two class periods. Pre-assessments are administered at the start of the school year, and post-assessments are administered at the end of the school year. BOCES-developed assessments can be password-protected. All assessments are administered online with the exception of the CTE assessments. CTE assessments are kept by the Office of CTE and are kept locked until the day of administration. Feedback is provided to students on their performance and scoring policy and procedures. In-service support and user training are provided as needed through the Department of Instructional Support Services and its various professional development, data collection and analysis, curriculum development, assessment development, and Common Core professional development. All assessments are implemented following the criteria used for the administration of state assessments and the requirements set forth in the Administering P-Regents Examinations.

Please provide an overview of student growth metrics used in your district(s) and how they are aggregated to the state level. Please also describe how these metrics are converted to New York State 1-30 metrics.

Pre and post assessments are aligned to the NYS Next Generation Learning Standards. Each classroom teacher assigns a differentiated target for each student that is based on baseline performance. Each student will either meet or exceed their individual target. The percentage of students that meet or exceed their target is the HHI. Using the two data points of the pre and post assessments, the district calculates the HHI score for each teacher by dividing the number of students that met or exceeded their target by the total number of students. This score is converted to the New York State 1-30 metric in accordance with the Education Law 2010.
