for an explanation of each mandate to determine school's eligibility for each mandate. te (m7Tw 5 0078-12 3432465] 6 H0512848 0 20200045) subject to the availability of funds.

The 2015 claim year was closed effective October 31, 2015. Claims for reimbursement accepted for the 2015-16 school year or any year prior to October 31, 2015.

Reporting periods - Claims for reimbursement are based on the mandated services provided during a school year.

The school year is defined as July 1 to the following June 30.

Explanations are required for the following:

- When the **Pupil Attendance Report** PAR claim total exceeds the previous year by 20% or more; or
- When the claim total reimbursement exceeds the previous year by 20% or more; or
- When you chose Opening or Closing enrollment and the enrollment varies by more than 20% of the reported BEDS data

Calculation of Hourly Rates - Hourly Rates must be for the employees providing the mandated service.

Hourly salary and fringe benefit rates are calculated in the Nonpublic School Mandated Services Aid, Schedule A/Worksheet.

When calculating hourly salary and fringe benefit rates, if the total number of hours the employee is expected to perform required duties is determined based on a standard workday, the number of hours in that workday must be in accordance with established school policy. In accordance with NYS Law, employees who work six hours are to receive at minimum ½ hour unpaid lunch period, which may be subtracted from the total hours required to be performing required duties. If the total hours worked is based on other than a standard workday, documentation of hours worked by each employee must be maintained by the school and be readily accessible.

The calculation of hourly rates must include the hours and salaries for those employees that provided the mandated service being claimed.

- Example: Reimbursement for Pupil Attendance Reporting (PAR) is provided for taking attendance once per day.

Supplies and Materials - Costs for supplies and materials for certain mandates will be automatically reimbursed based upon fixed amounts that have been determined to be consistent with actual costs. It is not necessary to maintain documentation for these fixed amount expenditures. Reimbursement rates for supplies and materials are as follows:

Note: Each grade 4 and 8 test kit contain 30 set-ups, which serves up to 30 students. Schools that have fewer than 30 students taking the exam must use the remaining set-ups for the tests administered in subsequent years.

Set-ups are reusable and generally last a minimum of 3 years. The set-ups contain some items that are discarded after each exam. These set-ups must be replenished before administering the next scheduled exam. Allowance for the disposable items in the set-ups is included in the reimbursement fees for supplies and materials.

The Regents Earth Science Kit may be purchased in different sizes, depending on the number of teachers and students. Reimbursement is restricted to complete kits only, not replacement material.

Schools must maintain inventory records of the test kits.
