- Links are embedded where necessary.
- Allocate appropriate time for each stop based on the number of educator any time constraints.
- Rhechesepreatal tablnshirections before presenting so that you are aware of the

Begin the Introduction to Webinar and Brief Series presentation. Stop the webinar at 0:44 and discuss slide 2, showing the New York State P-12 Science Learning Standards. These standards were adopted in December 2016 and initial transition began July 2017. The NYSP12SLS are based on *A Framework for K-12 Science Education* and the Next Generation Science Standards (NGSS).

To orient the educator to the NYSP12SLS, ask them the following:

- What do you know about the NYSP12SLS?
- Which standards have you implemented so far?
- What has been successful?
- What has been challenging?

Provide an opportunity for pairs or groups to share their thinking. Continue the webinar.

Stop the webinar at 10:43. Discuss slide 10. The
